About US

Dalmar Konstruksie (Pty) Ltd was established by A.O. Swart Snr in 1973. Good business ethics and high moral values were part of the company's working philosophy from the beginning.

This enabled the company to build long lasting work relationships with suppliers, clients and subcontractors. We believe these strong relationships give us an edge when it comes to quality, pricing and performance, compared to our competitors.

In the last decade, we have experienced phenomenal organic growth to meet the demands of our established and new clients. A conservative approach towards financial management has enabled us to meet performance deadlines and has put us in a capital position ready for further expansion.

Vision & MISSION

We are optimistic about future projects in South Africa as well as Southern Africa and are gearing ourselves towards expansion by forming strategic partnerships with other major players in the industry.

With this in mind, offices were established in Botswana, Mauritius and Zambia. Companies, falling under the control of Dalmar's directors, were also registered in these countries.

We view these countries as high potential growth markets where we can make long term positive contributions towards its economies, infrastructure development and skills transfer.

Dalmar is a member of the National Home Builders' Council of South Africa (NHBRC). Dalmar also has high ratings of 9 GB (General Building) and 8 CE (Civil Engineering), with the Construction Industry Development Board (CIDB).

Our **SERVICES**

Our team of dedicated and experienced personnel enables us to cater for virtually all of our clients' requirements, which includes:

- ▶ PROCUREMENT OF SUITABLE LAND
- ▶ PROJECT PLANNING AND COST ANALYSIS
- ▶ PROJECT MANAGEMENT
- ▶ PROPERTY DEVELOPMENT
- ▶ TURNKEY CONSTRUCTION OF PROJECTS INCLUDING SITE SERVICES
- ▶ INFRASTRUCTURE DEVELOPMENT

These services are supplemented by our extensive network of associates and project specific partners.
